

**ALYTUS**  
sport and recreation

**ALYTUS** is the largest southern town of Lithuania. 16 km of the loop of Nemunas with picturesque forests, green hills surrounds Alytus. Alytus is a town in a park. More than a third of the territory of the city is covered with green areas.

Alytus is known as one of the sports tourism attraction centers of Lithuania. Every year different national and international sports events are organized here. The town hosted one of the stages of the 2011 FIBA European Men Basketball Championship, 2013 UEFA European U-19 Championship matches, European U-17 Championship matches. In 2011, Alytus was declared the top sports town of Lithuania. Alytus men handball (Almeida-Stronglasas), basketball (Džūkija), football (Dainava) teams play in the premier sports leagues of Lithuania, men (ASRC-Almeida-Stronglasas), women handball (ASRC-Margiris), women basketball (Alytus RKL) teams play in the first leagues of the country.

Sport is becoming a more and more important recreational activity; therefore it is the focus of Alytus city municipality. Residents of the town, including students, are able to choose one of 20 sports in the Sports and Recreation Center or participate in the activities of 65 sports clubs and public organizations.

New objects of sports infrastructure allowing the residents and guests of the town to be active during their free-time are reconstructed or constructed every year. The reconstructed Sports and Recreation Center arena is suitable for international tournaments of the highest level. The renovated center also has a 50 meter 8 lane swimming pool. The reconstructed stadium for football and track and field athletics also offers high quality tennis courts. Fans of active recreation can use bicycle paths built through the whole town and on the bank of the Nemunas by Alytus city municipality. Riding through the town and along the banks of the Nemunas, you can enjoy the nature, the flow of the Nemunas and see the still standing objects from the past. The stadiums and sports halls of Alytus schools are suitable for playing football, basketball, volleyball, handball, table tennis, etc.

It is intended to continue extensive reconstruction, modernization and development of the sports and recreational infrastructure in the town.

## RECREATIONAL TERRITORIES

There are over 22 km of **bicycle paths** in Alytus. The Health Path running along the whole town that cyclists and people on foot love was built on the embankment built for the railway in the 19<sup>th</sup> century, the height of which is over 20 meters in some places. The bicycle path along the banks of the Nemunas is 6 km long (starts in A. Baranausko g., by the former railway and ends in Alytus wood) allows you to enjoy the picturesque banks of the Nemunas and the paths of Alytus wood. You can not only enjoy the nature during the ride but also see the rapid Nemunas and the remaining objects from the past. The bicycle and pedestrian paths are also built in Kurortas and Jaunimas parks, residential areas. The network of paths is developed, a 240 m bicycle and pedestrian bridge over the Nemunas which will connect the mound and Alytus I and the old town is built.

**Jaunimas park** was established in 1984. A group of sculptors, headed by N. Nasvytis and Alytus senior artist A. Stankevičius, created the first arrangement of metal plastic sculptures in Lithuania, which give the Jaunimas park a unique look due to their bright colours and have a decorative and a functional purpose. The sculptures invite to look at them, develop the aesthetical taste, nurture the imagination, and the children are drawn to play. The park is suitable for both public cultural events and peaceful recreation. You will find playgrounds, chess, sports, skateboard and roller-skate courts, marked bicycle paths here. The park is illuminated. Racewalking and running competitions are held here.

**Garden of the town.** In the very center of Alytus you will find the Garden of the town famous for its rose garden, it was started in the 30's of the last century. An interwar fountain with a basin where there used to be gold fishes and lilies is still standing. Here you can also find European yews that are rare in Lithuania, in spring you can enjoy a Japanese magnolia blooming by the fountain. There are 55 types of trees and bushes in the Garden of the town. The Garden of the town connects to the Kurortas park through Freedom Angel (Laisvės Angelo) square. The park is illuminated.

**The Old Town Square is located** by Bažnyčios street and Alyvų path. Before WWII residential, trade and craftsmen houses stood here but they were destroyed during the first air raid of the Germans. After the war the houses were not rebuilt and a square was formed. In 2012 the square was reconstructed. The new colourful fountain bears the poem of Jurgis Kunčinas. The square is illuminated.

**Kurortas park** was created in 1931 in a natural pinewood. The park has playgrounds, benches. Paths lead to the Large and Small Dailidė lakes formed in the wash of the Nemunas. Nearby you will find a beach, a wooden water terrace, pier, leisure courts, benches, bicycle paths go around the lake. The paths of Kurortas park lead from the stadium of the town to the Valley of Songs (Dainų slėnis), where you will find a spectacular view to the two-hill Alytus mound. Here a bicycle and pedestrian bridge over the Nemunas is constructed.

**Likiškiai park** is one of the youngest parks of the town, it was started in 1994. The highest hill (165 m) in Alytus is located in the park, and from it you will see an excellent panorama of the town. By the park stands a monument to Lithuanian soldiers who died in 1979–1989 in the Afghanistan War. An oak forest has been planted to commemorate these people.

**Vidzgiris Forest** (452 ha) is located in the territory of Alytus town. It is a botanical reservation, where you can find broad-leaved and ravine and slant forests, hornbeams, oaks, rare plants of high botanical value, many protected species of animals. Nature lovers and wanderers will find an ecologic path from the Radžiūnai mound. Orienteering and mountain cycling competitions take place in Vidzgiris Forest, in winter the residents come to ski.
